**A NOTE FROM OUR CEO**

Behind the numbers.

Dear Families,

Behind every number is a student whose effort, curiosity, and aspirations we've had the privilege of supporting, and a family who placed their trust in us.

The outcomes for the Class of 2026 were extraordinary. And they are the result of sustained effort, intellectual curiosity, thoughtful guidance, and the courage to present themselves authentically in an increasingly crowded admissions landscape.

At Top Tier Admissions, we don't believe in formulas, shortcuts, or manufactured resumes. The strongest applications emerge from time, trust, strategy, and the careful work of helping a student understand who they are and how they want to contribute to the world.

It is a privilege to do this work alongside such remarkable young people and families. Thank you for allowing us to be part of this important chapter.

OUR APPROACH

Our results reflect a deliberate, decades-tested methodology built around three principles.

**Expertise**

Our team includes former Ivy League admissions officers, published authors, and award-winning educators who bring decades of experience to their work with students.

**Personalized Strategy**

There is no formula. We see each student's unique achievements, traits, and potential, then craft a tailored strategy designed to give them a competitive edge.

**High-Touch Partnership**

In our Private Counseling Program, our counselors serve as mentors to students and partners to their families, from the moment of enrollment until graduation. We work with a limited number of families each year to ensure individual attention.
